

HPE and Zettaset

HPE SimpliVity and Zettaset XCrypt Full Disk
Working together. Accelerating results.

A new style of partnering

Hewlett Packard Enterprise and Zettaset are collaborating in a fresh new way to bring increased value to customers like you.

We know that acquiring technology is only the first step in achieving a business goal. The technology pieces need to work together. They need to be tested. They need to provide rich functionality, quickly and effectively, so you can concentrate on your business needs.

To help satisfy these needs, Zettaset is a member of the HPE Partner Ready for Technology Partner program, an industry-leading approach to supply sophisticated integrated technologies in a simple, confident, and efficient manner. Zettaset has access to the right tools, processes, and resources to help our joint customers accelerate innovation and transformation that brings value, achieves business needs, and increases revenue and market share.

Product overviews

Zettaset XCrypt Full Disk is a high-performance, software-based volume and partition encryption solution that requires no proprietary appliances, delivering the benefits of lower cost, simplified deployment, and ease-of-use.

The versatility of XCrypt Full Disk makes it ideal for today's bare metal, virtual, and cloud infrastructures. It includes a virtual key manager and virtual hardware security module (HSM), or it can work with any Key Management Interoperability Protocol (KMIP) compliant key manager already in use.

XCrypt Full Disk as a next-generation, appliance-free software solution aligns well with HPE composability—delivering to customers the ability to easily adapt their infrastructure to meet changing application and security requirements. Encryption can be added when needed, where needed, to new or in-production systems. XCrypt Full Disk is ideally suited to secure HPE SimpliVity storage. Its software-only design enables it

to scale with your data and maintain high performance. It encrypts entire volumes or partitions, helping ensure your data is entirely protected. Deployment is greatly simplified over legacy appliance-based alternatives, enabling you to be up and running in hours.

HPE SimpliVity 380 and 2600

The HPE SimpliVity solutions give IT leaders the agility and economics of the cloud with the control and governance of on-premises IT. They deliver powerhouse hyperconverged solutions capable of running some of the world's most efficient and resilient data centers. These solutions dramatically simplify IT by combining infrastructure and advanced data services for virtualized workloads onto the bestselling server platforms in the market.

HPE SimpliVity 380, available on HPE ProLiant DL380 Servers, is a compact, scalable 2U rack-mounted building block that delivers server, storage, and storage networking services.

HPE SimpliVity 2600, available on HPE Apollo 2000 servers, is a compact solution optimized for edge and remote office/branch office (ROBO) environments.

Company overview

About Zettaset

Zettaset provides a software-defined encryption solution designed for securing and protecting data in physical and virtualized environments, with broad applicability across cloud, on-premises, and IoT deployments. Zettaset's high-performance encryption can scale throughout distributed architectures where data is created, processed, and stored.

With a low TCO and ease of use that allows any IT administrator to install, deploy, and manage encryption processes, Zettaset provides a comprehensive cryptographic solution without the complexity, business interruption, or performance degradation associated with legacy appliance-based offerings.

Cyberattack and data breach exposure points exist at all stages of the data lifecycle and these threats put the safety and integrity of data at risk. Compliance with regulatory and security mandates is no longer optional, but fundamental to the protection of sensitive data. With the growing reliance on analytics as the compass for critical decisions, Zettaset provides the vital security paramount to maintaining compliance and data integrity necessary for an organization to create value and execute on their strategic goals.

About Hewlett Packard Enterprise

Hewlett Packard Enterprise is a global technology leader focused on developing intelligent solutions that allow customers to capture, analyze, and act upon data seamlessly from edge to cloud. HPE enables customers to accelerate business outcomes by driving new business models, creating new customer and employee experiences, and increasing operational efficiency today and into the future.
